

Join Kaplan Early Learning Company and the Devereux Center for Resilient Children for a day of learning and hope!

We all want young children to be successful – but for many children, especially those at high risk, life’s challenges can be overwhelming. To overcome obstacles, children must be **RESILIENT**. They need internal tools – “protective factors” – to protect themselves against risk and adversity. Resilience research helps us better understand how to build children’s protective factors and reduce challenging behaviors.

The goal of this powerful, one-day, thought-provoking training is to strengthen children’s resilience by helping adults reflect upon, recognize and intentionally plan ordinary activities, events and experiences to build the social and emotional strengths of every child, every day, in every way.

- Explore the impact of social emotional health on school readiness
- Study the research of promoting resiliency in young children
- Recognize key indicators to identify resilient children, adults and environments
- Discover the positive difference of strength-based assessments
- Understand the why and how of intentionally collecting data through on-going observations, screens and assessments
- Acquire effective strategies that promote resilience while reducing challenging behaviors
- See the world through social emotional lenses

Resilience
Every Day Every Way

Promoting Resilience: A Key to Preventing & Reducing Challenging Behaviors in Preschoolers

This one-day training is designed for those working with preschool children/families, including early care and education professionals, early childhood mental health professionals, and higher education instructors.

Cost: \$149 per participant

In addition to a lovely lunch, each participant will receive a copy of *Promoting Resilience in Preschoolers Strategy Guide*, *For Now and Forever Family Guide*, *Devereux Early Childhood Assessment for Preschoolers Record Forms*, and more!

CEUs are offered for this training event through Western Kentucky University for an additional fee of \$25. It is the responsibility of the participant to check with their state board to confirm that these CEUs will be accepted based on requirements of various disciplines. All participants will receive a certificate of completion at the end of the professional development session.
