

FLIP IT!®

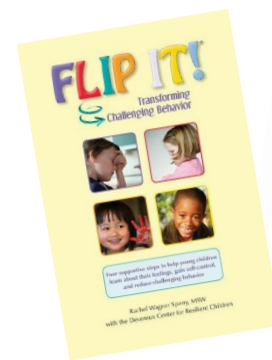

Transforming
Challenging Behavior

Online Course 2nd Edition

Teachers and parents can help children learn about their feelings and gain self-control by using the mnemonic:

F – Feelings, L – Limits, I – Inquiries, P – Prompts

These four steps transform challenging behavior using a simple, kind, strength-based, commonsense and effective process. *FLIP IT* is nothing new, but transforms best practice into a strategy that is easy to remember and portable. *FLIP IT* teaches adults how to respond positively to everyday challenges and challenging behaviors in children ages three to eight.

Learn this evidence-based strategy *online* at your own pace!

The *FLIP IT!* Online Course, 2nd Edition teaches the four supportive steps of *FLIP IT* in an online learning format. The course can be completed over time, on your own time, and not all in one sitting! It has a running time of approximately 2.5 hours. The cost of the course is \$30.00/person. Research Supports *FLIP IT!*

An independent evaluation of the *FLIP IT* strategy, conducted by the Center for School-Based Mental Health Programs at Miami University, found that *FLIP IT* appears to be an effective method for decreasing children's challenging behaviors and increasing children's ability to express emotions and manage behaviors in healthy ways. In addition, parent-child relationships improved steadily across a six-month period after parents learned this simple and effective strategy for transforming challenging behavior.

What are people saying about this course?

I was able to take the *FLIP IT!* Online Course, 2nd Edition, and I LOVED IT!! I took the Train-the-Trainer last year which was a two-day training. Even though I took the Train-the-Trainer course, I learned new information taking the online course. I felt that the pace wasn't too fast and I did not feel overwhelmed at all, but did get a LOT of useful information. Even though the concept is not a new one, the way the F.L.I.P. steps are put together makes a lot of sense. Putting these steps into practice will be a challenge as we, as adults, all want to solve children's problems quickly. However, giving children the tools needed to solve their own problems is what we strive for and this is what the whole *FLIP IT* program is about.

I like how the course was structured. It was easy to follow, well explained, and each module had the same format. I appreciated the visuals throughout. I liked the visuals that went along with Haley's story this time around because it is a beautiful story. I liked the quizzes to check my understanding, the ability to review the material using the tool bar, and to even redo the quiz to better understand the information. I liked the handouts as well.

For anyone interested in sharpening your *FLIP IT* skills, I definitely recommend the Online Course, 2nd Edition. For those who are brand new to *FLIP IT*, this resource is well worth the investment of time and money. I've been using *FLIP IT* in my TA practice for years, and it's by far one of the most effective strategies to have in your resources toolkit!

I truly enjoyed *FLIP IT!* Online Course, 2nd Edition. I took the *FLIP IT* Train-the-Trainer last year and this was such a great refresher, and I already have some new ideas to include in my next training. The best part for me was hearing new examples of different FLIPs for the practice pictures. The training went at a great pace and used plenty of examples to ensure learning.

The new *FLIP IT!* Online Course is great! The team at Devereux has streamlined it into a meaningful and time-friendly way to access training for anyone working with young children. Thank you for updating this valuable resource!

I am so thankful to have been able to take this online course and hope to share it with the parents I work with. The webinar and handouts are so helpful and well-structured.

For just \$30.00, you can experience the course yourself!
